

Aizaz Khan

+966 5628370707 | aizazkhan102030@gmail.com | LinkedIn | Portfolio | Riyadh, Saudi Arabia

PROFILE

Data Scientist with 2+ years of experience in data analytics, visualization, and machine learning. Proficient in Python, SQL, Tableau, and (BI) Business Intelligence, with a strong ability to extract actionable insights from complex datasets. Experienced in building interactive dashboards, automating reports, and developing real-time AI applications to improve business performance and support data-driven decision-making.

EDUCATION

Bachelor of Data Science

Institute of Management Sciences Peshawar | 2019 – 2023

DIT (diploma of information technology)

KPBT Brain Postgraduate College | 2018 – 2019

SKILLS

Data Analysis & BI Tools: Power BI, Tableau, Excel, Data Visualization, Dashboard Development, KPI Reporting

Programming & Data Tools: Python, SQL, Pandas, NumPy, PySpark, Tensorflow, Matplotlib, Seaborn, GitHub, Odoo ERP

Machine Learning: Regression, Classification, XGBoost, Predictive Modeling, Model Evaluation, Predictive Modeling, Fraud Detection,

AI Development: LLM APIs (Claude, Groq), Prompt Engineering, AI Chatbots, RAG, Generative AI, Machine Learning, NLP, scikit-learn, PySpark, AI Agents

Data Engineering Concepts: ETL, Data Cleaning, Data Preprocessing, Data Modeling, Databricks, Azure

CERTIFICATIONS AND ACHIEVEMENTS

- Excel Basics for Data Analysis – **Coursera** (Link)
- Python 101 for Data Science – **IBM** (Link)
- Introduction to Data Science – **365 Data Science** (Link)
- Introduction to Machine Learning – **Coursera** (Link)
- Neural Networks & Deep Learning – **DeepLearning.AI** (Link)
- Statistics for International Business – **University of London** (Link)
- Big Data 101 – **IBM Developer Skills Network** (Link)
- Introduction to Python – **DataCamp** (Link)
- Claude Academy: Claude Code 101 – **Anthropic** (Link)
- Introduction to Networks – **Cisco** (Link)
- Data Engineering, SQL Analytics & Business Intelligence –**Databricks** (Link)

EXPERIENCE

Transport Fleet Data Analyst
JAK Transport Ltd | Riyadh, Saudi Arabia | May 2026 – Present

- Fleet Data Analyst with experience in analyzing transportation operations, fleet KPIs, routes, fuel consumption, maintenance, and costs using Excel, Power BI, SQL, and Python to deliver actionable insights and improve operational efficiency

Data Analyst
(Shafiq Arabzada Ltd) Peshawar | Feb 2024 – Mar 2026

- Analyzed and visualized vehicle tyre sales and inventory data using Excel and Power BI to generate actionable insights.
- Designed interactive KPI dashboards and reports using Power BI, reducing reporting time from 5 hours to 2 hours
- Automated weekly data reporting, reducing manual effort by 60%.

Machine Learning Intern (Link)
Codsoft (Remote) | Sep 2023 – Oct 2023

- Developed and fine-tuned machine learning algorithms to solve real-world data problems, improving accuracy and efficiency
- Applied supervised learning algorithms and deployed solutions for real-time prediction tasks.

PROJECTS

Data Analysis

- Performed EDA on logistics transportation data using Python, Pandas, SQL, and Excel, analyzing delivery performance, revenue, routes, fleet utilization, and operational KPIs to identify actionable business insights. (Link).
- Analyzed Superstore sales data using Databricks, PySpark, and SQL to identify sales, profit, customer, and product trends. Developed SQL queries, KPIs, and analytical views to evaluate business and operational performance. (Link).

Machine learning

- Built an end-to-end fraud detection pipeline using Python, EDA, feature engineering and ML models including Random Forest and XGBoost for identifying fraudulent transactions Evaluated classification models using Precision, Recall, F1-score, ROC-AUC, and confusion matrix to identify fraudulent transactions.(Link).

Ai-Financial-intelligence-system

- AI-powered financial intelligence platform built with Django, Python, and SQLite, featuring double-entry accounting, financial statements, forecasting, anomaly detection, risk scoring, ZATCA-ready invoicing, bilingual dashboards, and an AI financial chatbot.(Link).
