

Aizaz Khan

+966 5628370707 | ✉ aizazkhan102030@gmail.com | 🔗 [LinkedIn](#) | 🌐 [Portfolio](#) | 📍 Riyadh, Saudi Arabia
🇸🇦 Iqama No: 2640046690

PROFILE

Data Analyst and Data Scientist with 2+ years of experience in data analytics, visualization, and machine learning. Proficient in Python, SQL, Tableau, and (BI) Business Intelligence, with a strong ability to extract actionable insights from complex datasets. Experienced in building interactive dashboards, automating reports, and developing real-time AI applications to improve business performance and support data-driven decision-making.

EDUCATION

Bachelor of Data Science

Institute of Management Sciences Peshawar | 2019 – 2023

DIT (diploma of information technology)

KPBT Brain Postgraduate College | 2018 – 2019

SKILLS

Data Analysis & BI Tools: Power BI, Tableau, Excel, Data Visualization, Dashboard Development, KPI Reporting

Programming & Data Tools: Python, SQL, Pandas, NumPy, PySpark, Matplotlib, Seaborn, GitHub, Odoo ERP

Machine Learning: Regression, Classification, XGBoost, Predictive Modeling, Model Evaluation

Web Development: Django, Flask, HTML

Data Engineering Concepts: ETL, Data Cleaning, Data Preprocessing, Data Modeling, Databricks, Azure

CERTIFICATIONS AND ACHIEVEMENTS

- Excel Basics for Data Analysis – Coursera ([Link](#))
- Python 101 for Data Science – IBM ([Link](#))
- Introduction to Data Science – 365 Data Science ([Link](#))
- Introduction to Machine Learning – Coursera ([Link](#))
- Neural Networks & Deep Learning – DeepLearning.AI ([Link](#))
- Web Application with Django – University of Michigan ([Link](#))
- Big Data 101 – IBM Developer Skills Network ([Link](#))
- Introduction to Python – DataCamp ([Link](#))
- Joining Data with Pandas – DataCamp ([Link](#))
- Introduction to Networks – Cisco ([Link](#))

EXPERIENCE

Data Analyst

(Shafiq Arabzada Ltd) | Feb 2024 – Mar 2026

- Analyzed and visualized vehicle tyre sales and inventory data using Excel and Power BI to generate actionable insights.
- Designed interactive KPI dashboards and reports using Power BI, reducing reporting time from 5 hours to 2 hours
- Automated weekly data reporting, reducing manual effort by 60%.

Machine Learning Intern ([Link](#))

Codsoft (Remote) | Sep 2023 – Oct 2023

- Developed and fine-tuned machine learning algorithms to solve real-world data problems, improving accuracy and efficiency
- Applied supervised learning algorithms and deployed solutions for real-time prediction tasks.

PROJECTS

Data Analysis

- Developed an interactive dashboard using SQL and Power BI to analyze transaction and customer data, delivering real-time business insights. ([Link](#))
- Developed a comprehensive Excel-based Sales Performance Dashboard to analyze product-wise, region-wise, and time-wise sales data. ([Link](#))

Machine learning

- Developed a Machine Learning model using XGBoost to predict bank customer churn, achieving 87% accuracy. Analyzed customer behavior data to improve retention strategies and support data-driven decision-making. ([Link](#))

Deep learning

- Developed a CNN-based model for real-time marble crack detection, reducing industrial inspection costs. ([Link](#))
- Built and deployed a deep learning model to detect common eye diseases. Integrated with a Flask web app for real-time predictions using uploaded images. ([Link](#))
