

AIZAZ KHAN

Data Scientist | Data Analyst | Ai Engineer

+966 5628370707 | aizazkhan102030@gmail.com | LinkedIn | Portfolio | Riyadh, Saudi Arabia

PROFILE

Data Scientist and Data Analyst with 2+ years of experience in data analytics, business intelligence, and machine learning. Proficient in Python, SQL, Power BI, Tableau, and Excel, with a strong ability to turn complex datasets into actionable insights. Experienced in building interactive KPI dashboards, automating reports, and developing machine learning models and AI applications that improve business performance and support data-driven decision-making.

TECHNICAL SKILLS

Programming & Databases: Python, SQL, PySpark, Pandas, NumPy, Matplotlib, Seaborn, Django, Flask

Business Intelligence: Power BI, Tableau, Microsoft Excel, Data Visualization, Dashboard Development, KPI Reporting

Machine Learning: scikit-learn, TensorFlow, XGBoost, Random Forest, Regression, Classification, Predictive Modeling, Model Evaluation, Fraud Detection

AI & NLP: Generative AI, LLM APIs (Claude), Prompt Engineering, RAG, AI Agents, AI Chatbots, NLP

Data Engineering & Cloud: ETL, Data Cleaning, Data Preprocessing, Data Modeling, Databricks, Microsoft Azure

Tools: GitHub, Odoo ERP

PROFESSIONAL EXPERIENCE

Transport Fleet Data Analyst **May 2026 – Present**

JAK Transport Ltd | Riyadh, Saudi Arabia

- Analyze transportation operations data, including fleet KPIs, routes, fuel consumption, maintenance, and operating costs.
- Report fleet performance and cost trends to management using Power BI dashboards and Excel.
- Use SQL and Python to clean, query, and analyze fleet data, delivering actionable insights that improve operational efficiency.

Data Analyst **Feb 2024 – Mar 2026**

Shafiq Arabzada Ltd | Peshawar, Pakistan

- Analyzed and visualized vehicle tyre sales and inventory data using Excel and Power BI to generate actionable business insights.
- Designed interactive KPI dashboards and reports in Power BI, reducing reporting time from 5 hours to 2 hours.
- Automated weekly data reporting, reducing manual effort by 60%.

Machine Learning Intern **Sep 2023 – Oct 2023**

CodSoft | Remote | Certificate

- Developed and fine-tuned machine learning models to solve real-world data problems, improving accuracy and efficiency.
- Applied supervised learning algorithms and deployed solutions for real-time prediction tasks.

PROJECTS

AI Financial Intelligence System | *Django, Python, SQLite, AI*

- Built an AI-powered financial intelligence platform with double-entry accounting, financial statements, forecasting, anomaly detection, and risk scoring.
- Implemented ZATCA-ready invoicing, bilingual dashboards, and an AI financial chatbot.

Bank Fraud Detection | *Python, scikit-learn, XGBoost*

- Built an end-to-end fraud detection pipeline with EDA, feature engineering, and Random Forest and XGBoost models to identify fraudulent transactions.
- Evaluated classification models using precision, recall, F1-score, ROC-AUC, and confusion matrix.

Logistics Transportation Data Analysis (EDA) | *Python, Pandas, SQL, Excel*

- Performed exploratory data analysis on logistics data covering delivery performance, revenue, routes, fleet utilization, and operational KPIs to identify actionable business insights.

Superstore Sales Data Analysis | *Databricks, PySpark, SQL*

- Analyzed sales, profit, customer, and product trends; developed SQL queries, KPIs, and analytical views to evaluate business performance.

EDUCATION

Bachelor of Science in Data Science **2019 – 2023**
Institute of Management Sciences (IMSciences), Peshawar, Pakistan

Diploma of Information Technology (DIT) **2018 – 2019**
KPBT Brain Postgraduate College, Peshawar, Pakistan
